

# ANY ATTEMPT TO INCREASE ARMY TO BE OPPOSED

## House Will Oppose Any Increase Over 150,000 Men

### WILL HAVE TO PARE DOWN EMPLOYEES

(By The Associated Press)

WASHINGTON, Feb. 1.—Taking the \$228,000,000 army appropriation bill the House in the first flurry of debate today showed it was ready to fight any attempt to put the enlisted personnel above 150,000 men provided for in the measure. Chairman Anthony of the appropriations subcommittee, in charge of the bill declared that in reducing the amount provided for the army's maintenance, it had responded to public demand and an effort now was being made to put an end to the waste and extravagance that has characterized the military establishment for the last few years.

The hours time allotted him for explaining provisions of the bill the chairman was interrupted by a volley of questions indicating strong support for an army of 150,000 men and approximately 14,000 commissioned officers. Mr. Anthony insisted this number would be sufficient for all requirements, that the National Guard would become an invaluable adjunct if given the wholehearted support and sympathy of the war department and that it would be no difficulty in bringing down the present total of July 1, the end of the fiscal year.

Will be Reduced After March 4.

"After March 4, I can guarantee that the army will be reduced," said Mr. Anthony.

In fixing the maximum the chairman declared it had been agreed upon after careful study of the country's actual needs, adding that the United States was better prepared than any other nation to fight as it had ammunition now on hand that it could not use in 20 years.

Discussing the question of civilian employees, the chairman said:

"If this bill is passed the war department will be called upon to perform a surgical operation that will rid it of 40,000 civilian employees."

Representative Sisson, of Mississippi told the House if he could write a new military law he would abolish the army general staff and shift its duty to the secretary of war.

"The general staff," he added "serves in the magnificent capacity of the greatest buck passer of the army."

TWENTY YEARS OLD BOY IS KIDNAPED

forced to Write Note to Father for \$25,000 Ransom—Chew's Note in Blanket Gives Alarm and Is Rescued.

TACOMA, Wash., Feb. 1.—Arthur Rust, aged 20 son of W. R. Rust, wealthy Tacoma resident, was kidnapped here today by a bandit and forced, at the point of a revolver to write a note to his father for \$25,000 ransom, according to reports to the police.

Rust later was found bound in a garage on the Tide Flats below the city and was released. He said he had accepted a stranger's invitation of an automobile ride to get today and immediately was taken to the garage where he was bound with a rope and a heavy blanket thrown over his head. After finding the boy kidnapped, police believe left to summon a messenger to notify Rust's father. His captor was away the boy and he chewed a hole in the blanket and attracted attention of a negro who called the police.

The boy's father took the note to Rust's father and the Tacoma Smelter said he would have the ransom.

RANSOM TO BE USED FOR COMMERCE

SAN FRANCISCO, Cal., Feb. 1.—The United States Transport board, now enroute from New York to Honolulu, will be used in the future as a passenger and freight ship between the Hawaiian Islands and San Francisco, the transport service announced here today.

The Buford will carry no troops, a passenger and freight business the service has grown to such proportions that they demand exclusive use of the transport.

ABE RUTH FAILS IN COURT ACTION

Albany, N. Y., Feb. 1.—Babe Ruth, home run hitter of the New York American League club, failed to be able to restrain a film operation from showing pictures of him in action. The court appeals today denied an application made by counsel for Ruth to leave to appeal from a decision of the appellate division, which held that the exhibition of films did not inflict any personal injury or damage upon him.

# WILSON ATTENDS THEATER FOR FIRST TIME IN OVER YEAR

## Witnessed Presentation of Abraham Lincoln

### WALKED WITH ONLY THE AID OF CANE

(By The Associated Press)

WASHINGTON, Feb. 1.—President Wilson, accompanied by Mrs. Wilson, tonight went to the theater for the first time since he was taken ill more than a year and a half ago.

The president and his party which included in addition to Mrs. Wilson and the latter's brother John Randolph Bollinger, made their appearance unexpectedly at a performance of John Drinkwater's "Abraham Lincoln," having entered the theater through a stage door. As the president made his way to one of the lower boxes, he was recognized by the audience, which rose and cheered. Mr. Wilson responded by bowing.

The visit to the theater tonight also was the president's first appearance in public since he was taken ill.

The president after alighting from his automobile, theatre attendants said, made his way into the theater and to the box reserved for his party aided only by a cane. As the play progressed it was evident to the audience that he was enjoying himself and his first visit to the theater after a long absence.

Was Regular Theater-Goer.

Prior to his illness Mr. Wilson attended the theater regularly some times going as many as three and four times a week. During his illness he has been forced to content himself with motion pictures which have been shown at the White House. Rear-Admiral Cary T. Grayson, the president's personal physician, said that more than a month ago that his patient's health had improved so much that he might at any time attend a theatrical performance.

For several weeks after Dr. Grayson's statement, Washington theater-goers scanned the boxes nightly hoping that the president might make his appearance. As the nights passed and Mr. Wilson did not appear, the thought ceased to be uppermost among the theater crowds and thus his appearance tonight was a complete surprise. The end of the first act saw no diminution in the feeling of surprise and interest in the distinguished visitor and those in the audience instead of looking to the lobby and smoking rooms when the curtain went down stayed in their seats for the most part.

FORDNEY TARIFF MEASURE RIDES THRU STORMY DAY

Senator McCumber is the Only Defender of the Bill

HEATED DEBATE PRECIPITATED

(By The Associated Press)

WASHINGTON, Feb. 1.—With Senator McCumber, republican, North Dakota, as its only consistent defender in the debate the Fordney Emergency tariff bill went thru another series of hard knocks in the Senate today, opponents of the measure accepting every opportunity to attack it. Whether the bill will be sidetracked or considered continues under limitation of debate will be decided tomorrow when the Senate resolution for cloture comes to a vote. A supporters of cloture and of the bill tonight admitted that defeat of the resolution was inevitable.

Senator Townsend, republican, Michigan, declared that he proposed to call up the postoffice appropriation bill for consideration immediately after the cloture vote. He criticized the Senate for wasting time when important legislation was pending and challenged opponents of the Fordney measure to continue filibustering against "legitimate legislation and take the consequences."

Mr. Townsend's statements precipitated a heated debate in which half a score of senators participated. It was the first day in which the bill actually was to the fore in all discussion and its enemies picked flaws in every item. Altho Senator Thomas, democrat, Colorado, delivered a lengthy speech against it the full force of the attack developed afterward and continued until the Senate recessed. The House ways and means committee considering permanent tariff legislation continued hearings on a wool tariff.

Members of the committee declared the proposed rates were higher by one-third than any tariff ever imposed.

FIRE DOES DAMAGE IN WISCONSIN TOWN

WAUSAU, Wis., Feb. 1.—Fire destroyed the building and stock of the Wilderling and Hately Merchandise company here today and badly damaged a residence adjoining the store. The roof of the building collapsed and flames were shooting from all parts of the structure. The flames had gained considerable headway before the firemen arrived on the scene. The Shiloh hotel and a butcher shop adjoining the store were slightly damaged. The cause of the fire is unknown. Estimate of the loss has not been made by the owners.

# WILSON IS MOST PITIFUL FIGURE IN HISTORY-DEBS

## Feared He Might Owe His Liberty to the President

### SAYS HE IS NOT EXILE FROM OWN COUNTRY

(By The Associated Press)

ATLANTA, Ga., Feb. 1.—Eugene V. Debs, Socialist leader now serving a 10 year sentence in the federal prison here for violation of the espionage law, was not surprised nor disappointed over the president's refusal to commute his sentence according to a statement he issued today thru his counsel.

"It was my only fear," the statement said, "that I might be indebted for my liberty to Woodrow Wilson. My record good or bad is at least consistent and that is the only way it could have been smirched."

The statement referred to the president as the "most pitiful figure in history."

"No man in public life in American history," it said, "ever retired so thoroughly discredited as Woodrow Wilson. Shortly after the November election, his private secretary made a pitiful plea for him, saying that all he craved was the love of the people. This plea was stamped by the American people with the one word, 'denied.' The one word he wrote on the back of the recommendation for my pardon."

In Good Condition.

After stating that he was "never in better physical condition in my life than I am at this hour," the statement continued: "Mr. Palmer called attention to the fact that I shall be eligible for parole, August 1, 1922. In answer to this, I have to say that I shall not apply for parole, nor accept it. I shall serve my term to the last day or leave here with an unconditional pardon. I came here for my country and that I shall not betray them for any paltry consideration such as a parole. I may be in prison but, unlike the men who keep me here, I am not an exile from my own country. When I leave this prison I shall go unrepentant."

"Senator Capper showed the other day that out of the four billions annual expenditures for this country 97 per cent is spent on war, the result of war and preparation for war, and that three per cent is spent on constructive work. That's where Wilson stands. I stand for construction instead of destruction and devastation."

DR. RAWLINGS HEADS HEALTH DEPARTMENT

Physician Graduate of Illinois College Named By Governor Small to Important Post.

Springfield, Ill., Feb. 1.—Dr. Isaac D. Rawlings, for twenty-two years of the Chicago Department of Health, was this morning appointed Director of the State Department of Health by Governor Small. The appointment was the only one sent to the senate today. Dr. Rawlings will succeed Dr. C. St. Clair Drake, also of Chicago.

Dr. Rawlings was born April 21, 1869, at Carroilton, Ill. He spent his youth in Jacksonville, graduating at the Northwestern University School in 1890, and also studying in the universities in Vienna, Berlin, London and Dublin.

Dr. Rawlings is known to a great many people in Jacksonville as he lived here for a number of years. He is a nephew of the late Isaac Rawlings of this city and lived in Mr. Rawlings' home at the corner of West and Prairie streets while a student at Illinois College. He graduated from the college in the class of 1890. As indicated above, Dr. Rawlings has had extensive study abroad and has for a long period been identified with public health work in Chicago. For some time he was at the head of the hospital caring for contagious diseases.

RAGGED STRANGER IS IDENTIFIED

CHICAGO, Feb. 1.—The ragged stranger whom Carl Wanderer confessed but later denied having hired to stage a public hold-up on the night, Mrs. Wanderer and the stranger were shot to death today was identified by Mrs. Cora Opendora of Danville, Ill., as her nephew, Earl Keesee of Danville.

Keesee was identified by a growth on one ankle. His identity had remained a mystery since last summer.

Wanderer is now under a twenty-five year penitentiary sentence for the murder of his wife and will go on trial shortly for the murder of the ragged stranger.

Boston, Feb. 1.—An order for a strike effect at 10 a. m. tomorrow of about 2,000 members of local unions affiliated with the International Ladies' Garment Workers was issued tonight.

# Plan to Bring Back Body Of Unidentified Soldier

WASHINGTON, Feb. 1.—The return from Flanders fields of the body of an unidentified American soldier for interment in the New Amphitheater at Arlington National Cemetery was approved today by Secretary Baker, General Pershing and Major General John A. Lejeune, commandant of the marine corps and one of the war time commanders of the famous second division of marines and regulars.

In a letter read to the house military committee considering a resolution for this purpose, Secretary Baker said he could conceive of no more fitting inauguration of the use of the amphitheater "than to place there the body of a soldier whose name and identity are lost, but who will typify and report the imperishable part of the sacrifice which he and his comrades made their country and their country's cause."

Predicting that ultimately the Arlington Amphitheater would become the Westminster Abbey of America's heroic dead, the war secretary said no place could be more suitable than it for "this significant and symbolic interment."

Appearing before the committee in person General Pershing approved the proposal as a fitting national tribute to the other Americans who fell in the great war. He suggested that next Memorial Day be selected as the time for burial.

# INDEPENDENTS ARE ADMITTED BY LABOR BOARD

## Will Be Heard Despite Protest of Brotherhoods

### WOULD NEGOTIATE FOR ALL EMPLOYEES

(By The Associated Press)

CHICAGO, Feb. 1.—Seven independent employees' organizations, despite the opposition of the railroad brotherhoods, affiliated with the American Federation of Labor were today admitted as parties to the hearing on rules and working conditions before the railroad labor board. The independents will have full opportunity to present testimony covering their contentions for the board's consideration in rendering a decision on the case.

The board's decision was hailed as a distinct victory for the independent employees' organizations by their officers. Opposition to admission of the seven organizations to participate in the hearing was voiced by B. M. Jewell, president of the railroad employees department of the Federation of Labor. Mr. Jewell contended that the brotherhoods represented the employees as a whole and asked from the board that the right to negotiate an agreement for the employees.

Would be Czar of Employees.

Officers of the employees' organizations characterized the brotherhoods contention as an attempt to be the czar of the employees.

They declared 150,000 men were represented in their organizations and denied the right of the brotherhoods to speak for them.

The entire day's testimony before the board today was given over to objections of the railroads to the national agreements between clerks and station employees and the roads. Rules requiring overtime pay for work performed by employees on Sundays and holidays came in for objection by Mr. Whitler.

"The railroads serve the public 365 days in the year," Mr. Whitler said. "Some employees must be on duty to insure the safety of the traveling public. We submit that such overtime work ought not be imposed for unavoidable work which the management cannot lessen."

MRS. WITHERELL WILL APPEAR AS WITNESS

LOS ANGELES, Cal., Feb. 1.—Mrs. Gladys Witherell, kidnapped and held for ransom for six days in a lonely hut, will take the witness stand when the abductors, Arthur W. and Floyd Carr, conspire appear for sentence it was announced by the district attorney's office late today.

The purpose of calling her, it was to show she had been roughly handled when she was lured from her home and that she still bears evidence as the result of her treatment.

The arrangement was made according to officers because it was believed the prisoners would ask for clemency because they declared they had not injured Mrs. Witherell.

# FORD DEFENDANT IN \$1,000,000 SUIT FOR LIBEL

## Will Now Know How Tribune Publishers Felt

### SUIT IS BROUGHT BY MORRIS GEST

(By The Associated Press)

CHICAGO, Feb. 1.—The Practitioner \$1,000,000 damage suit against Henry Ford and his paper the Dearborn Independent was filed in circuit court today by Morris Gest, theatrical producer, who alleged that an article in the Independent on January 22, 1921 contained libelous, slanderous and false statements, concerning Mr. Gest and certain stage productions he has handled.

The article mentioned in the suit was said to have attacked "Aphrodite and Mecca," in particular terming them the most "slandrous spectacles ever shown in America."

Stage Controlled by Bootblacks.

The article which was alleged to have been libelous was quoted in the preface. It asserted that the American stage was "under the influence and control of a group of former bootblacks, newsboys, ticket speculators, prize ring habitués and bowery characters."

After saying that "Mr. Gest stalks before his fellow Jews as the most successful producer of the year," the article declared that Mr. Gest was not a great producer, but a "great pandering to a public whose taste he had no mean factor in debasing."

Gest, it is said, sold newspapers in Boston and in 1906 was a member "of a notorious gang of ticket speculators who were the bane of the public."

"There is nothing in Gest's career to indicate that he would ever contribute anything to the theater's best interests," the article said and also declared that a "slandrous story" of the type of immigrant boy who became a great theatrical producer."

POKER PLAYERS SHY AT POLICE PATROL

(By The Associated Press)

SUPERIOR, Wis., Feb. 1.—When police raided a gambling game in a hotel 23 strong men, wept and begged them not to call the patrol wagon.

The raiding squad held a consultation. The wagon was summoned. As it arrived the poker players expired.

"It's eternal bad luck to ride in the patrol," explained Chris. Larsen, alleged proprietor of the game. So Black Maria was sent on home empty and the gamblers formed column of squads and marched for a mile and a quarter to the police station.

So thankful were they for the policemen's clemency that they left their ball at the station house and never called for it.

# GOVERNMENT WILL COLLECT INCOME TAX FROM HARDING

## Will Have to Give Back About \$18,000 of His Salary

### COURTS RULED WILSON WAS EXEMPT

(By The Associated Press)

WASHINGTON, Feb. 1.—Warren G. Harding, as president of the United States, will receive something like \$18,000 less compensation from the government annually than Woodrow Wilson has received. The treasury will pay Mr. Harding the same amount that it pays Mr. Wilson—\$75,000 annually—but internal revenue bureau officials say that Mr. Harding must return nearly one-fourth of this income tax.

President Wilson was exempted from the income tax under a supreme court ruling because he came into office before the enactment of the 1918 revenue laws under which taxes were sought to be imposed on the salaries of the president and of federal judges. The supreme court held that the tax could not be collected in the case of incumbents because of the constitutional prohibition against the reduction of the salaries of the executive and federal judges during their term of office.

Applies to New Officials.

The solicitor general has ruled that the tax could be collected from officials taking office after the law became effective because that would not bring about any reduction in salary during the term of office.

Revenue bureau officials say that Mr. Harding, of course, will be allowed the usual exemption of \$2,000 a year for a married man and may claim certain business exemptions. Placing his exemption at \$2,000 yearly, however, they figure his normal income tax at \$5,180 and his surtax at \$12,940 a total of \$18,420. President Wilson is understood to have paid some taxes under the 1918 law before the supreme court ruled on the section which a federal judge attacked, but revenue bureau officials will not say how much nor whether it was refunded, holding that under the law such matters are confidential.

UTAH MEN FIGHT OVER ANTI-CIGARETTE BILL

State Is All "Hot Up" Over Measure—Mayor of Provo Utah Chastised by C. P. Castle.

SALT LAKE CITY, Utah, Feb. 1.—The anti-cigarette bill introduced in the Utah legislature which has caused many heated arguments today to blows between two prominent Utah men. The blows were rained upon Mayor Le Roy Dickson, of Provo, Utah, by Church P. Castle, president of a box making company of Salt Lake City and former president of the Utah Manufacturers association, according to eye witnesses.

The affray occurred following a public hearing on the bill at the state capital. Dickson is alleged to have called Castle a "four" and told Dickson to remove his glasses. Dickson complied and Castle then tore into him, spectators said. Friends separated them after Castle had drawn blood. Dickson said he would swear to a complaint for the arrest of Castle, charging assault and battery.

Dickson at the hearing championed the bill which seeks to prohibit the sale of cigarettes and smoking in public places. Castle asserted that the business men paid the taxes and that they should be paid and that the proposed legislation was ridiculous.

# NEXT FIRST LADY OF THE LAND IS BUYING CLOTHES

## Blue Favorite Color and Clothes to Be All American

### ATTENDS THEATER IN NEW YORK CITY

(By The Associated Press)

NEW YORK, Feb. 1.—The wife of President-elect Harding began selecting today the contents of her White House clothes cabinet. Mrs. Harding did not go shopping, but conducted a hotel suite campaign for clothes. Fifth Avenue's modistes, tailleurs, furriers and jewelers followed one another into her rooms where she spent nearly eight hours inspecting their offerings.

Scores of fabrics, gowns, hats and new models were displayed in her suite. The crowd that momentarily expected the future first lady of the land to appear waited in the lobby and on the sidewalks in vain. She granted admittance only to photographers and reporters and those who sought to have their goods chosen for the White House wardrobe. Style dictators predicted that the laws of fashion will be blue after March 4. That is the favorite color of Mrs. Harding. She selected a tea gown and evening gown of blue today and this taste was reflected in her choice of gems.

Mrs. Harding also made it clear that there will be no foreign frills in her wardrobe.

"I'm 100 percent American," she told a reporter who inquired about her choice in clothes. Her jewels also were all-American, the favorite being colonial type, such as cameos worn on black velvet bands for neck and wrist.

Mrs. Harding made her first public appearance here since her husband's election when she attended a theater tonight and witnessed a musical comedy. She was accompanied by Mrs. Harry S. New, wife of the senator from Indiana; Mrs. Edward B. McLean of Washington; Will H. Hays chairman of the republican national committee and a secret service man. They occupied a lower box.

HARDING REQUESTS WILSON TO CALL SPECIAL SESSION

Will Convene for the Purpose of Acting on Nominations

MESSAGE TRANSMITTED BY UNDERWOOD

(By The Associated Press)

WASHINGTON, Feb. 1.—President Wilson is expected to issue soon on request of President-elect Harding a call for a special session of the new Senate for March 4 to act on Mr. Harding's nominations of cabinet and other important offices. Such a special session is customary at the change of each administration and usually lasts only a few days.

Mr. Harding's request was contained in a telegram to Senator Lodge of Massachusetts, the republican leader and was transmitted to the state house today by Senator Underwood of Alabama, the democratic leader, acting at the behest of Senator Lodge.

President-elect Harding will issue after his inauguration, a call for a special session of the full congress for early spring, but he desires to have the more important of his official appointments confirmed before that time so that the administration machinery can be permanently established with the least possible delay.

WILL TRY TO PROVE GROUND HOG THEORY

# ORGANIZED LABOR IS UNALTERABLY OPPOSED TO BILL

## Fear to Place so Much Power in Hands of One Man

### SECRETARY OF MINE WORKERS TESTIFIES

(By The Associated Press)

WASHINGTON, Feb. 1.—Provisions of the Calder bill to regulate the coal industry will meet "unalterable opposition" of the industry's organized labor, William Green, secretary-treasurer of the United Mine Workers testified today before the senate manufacturers committee.

"We fear governmental authority in the fixing of wages," he said, "and we are apprehensive lest the courts construe the emergency sections of the Calder bill so that miners might be compelled to work regardless of the wage conditions."

Under the Lever act Mr. Green said the mine workers' union had been harassed by injunctions and indictments and subjected to repressive measures, notwithstanding we were told that it would apply to profiteers and not to labor.

Senator Reed, Democrat, Missouri, said that the Calder bill proposed to "cede uncontrolled power in the president and the federal trade commission," to declare emergencies.

Fear Uncontrolled Power.

"We are unwilling to submit the lives and destinies of the 4,000,000 men we represent to the will of any one man, no matter how great and good he may be," Mr. Green continued. "Also, we note that these laws may be passed with the intention of hitting at profiteers, dishonest men engaged in business but they actually go into action only against the laboring man. We know of no coal operators tried, convicted and sentenced under the Lever law, under which the miners union has been prosecuted."

Senator Reed remarked that he would "hate to lose confidence in the ability and intent of courts to work justice."

"Have you ever been in Judge Anderson's court?" Mr. Green retorted.

The discussion was dropped, while the union official proceeded to express approval of other provisions of the Calder bill. "No one could have any objections," he said, "to the system of collection of data on the costs of coal production and its selling price by the federal government."

Asked if the mine workers would allow the same publicity for their accounts, he declared that they would.

JAPANESE PROBLEMS WILL BE SETTLED BY NEXT ADMINISTRATION

Believe That it is Not Wisdom to Hasten Adjustment

MAY RESUME CONVERSATIONS

(By The Associated Press)

WASHINGTON, Feb. 1.—Settlement of diplomatic problems with Japan, especially as arising from the enactment by the state of California of anti-alien land ownership legislation, will be postponed until the Harding administration assumes office it was indicated today by state department officials.

While no formal announcement on the subject was made by the state department, it was intimated by officials that because of long standing character of the problems between the two governments it would be the part of wisdom not to hasten unduly their final adjustment merely for the purpose of concluding a treaty under this administration.

Officials say also that the recommendations submitted to the respective governments by Roland S. Morris, United States ambassador to Japan and Baron Shidehara, the Japanese ambassador here were not to be interpreted as in the nature of an agreement. It might be necessary they added, for the ambassadors to resume their conversations on the questions after the two governments had studied the reports.

The hearing on the Calder bill which proposes control of the mining industry is being criticized by both the mine operators and the representatives of the miners. Certainly there must be some merit in this proposed piece of legislation.

Somehow we can't help thinking that Judge Ben Lindsay, who in the past has been the presiding officer in one of the lower courts, should be willing to abide by the finding of the U. S. supreme court, and admit that he is in the wrong in the case from which he took appeal to the highest court in the land.

Only a few months ago most people thought that the creation of the railroad labor board was about to end all of the pressing difficulties over wages and hours of labor. Now it seems that theory was incorrect, and the board hearings give promise of a long series of contentions.

The average man does not know anything about international law. That is the reason he can't at all understand the system whereby it has been deemed necessary for Gen. Allen, military representative of the U. S. in Germany, to apologize to the government for the recent effort to abduct Bergdoll, the American draft evader. He is a fugitive from justice and the government has spent vast sums in the effort to bring about his arrest. But the representatives of the international law required the apology referred to.

Gen. Sanborn has a notable war record and is a fine soldier. Nevertheless, the American Legion acted wisely in its continued unwillingness to allow the organization to become involved in the present effort to retain the general as a member of the Illinois tax commission.

## SPRINGFIELD FIRED AT LAST

This is the editorial view of the Springfield Journal relative to the purchase of the utilities there by the city:

After years of waiting the temporarily insurmountable obstacle to the advancement of this city's capital is now free to make progress, once more. Patient persistence on the part of progressive business men finally succeeded in the apparently hopeless task of getting the city and the local utilities company to meet upon common grounds where an agreement has been reached which solves the public lighting, heating and power problems. The deadlock is broken.

Many details are involved in the agreement, but the substance of it is that terms have been agreed upon by which it is possible for the city to buy the heating, lighting and power plants of the Springfield Light & Power company and add them to the lighting and power system of the municipal plant, thus giving the municipality complete monopoly in the electric and public heating field. This situation contains vast possibilities for the city.

On the Level  
Now  
Who is  
"Cappy Ricks"?

which the city commission will endeavor to realize upon.

Equally important with the opportunity to purchase the plant at an agreed valuation is the initiation of a plan for financing the deal, which local financial leaders have pronounced feasible and free from serious objections. If their anticipations be realized, this city soon will have possession of the properties and will enter promptly upon a definite plan of gradual liquidation of the large indebtedness necessarily a feature of so large a venture.

All this means that the long period of stagnation which has held back public improvements is brought to an end. Electric wires now can be put under ground, where modern ideas demand they shall be placed. Public heating service can be improved, and street railway tracks can be replaced with modern equipment, and street pavements that have been deteriorating for so many years can be replaced. Millions of dollars that have been withheld for years from street improvements will be released and put at work for the benefit and comfort of the public. Instead of a city laboring under reproach for lack of public enterprise, Springfield will step at once into the forefront of progress and take the position in the limelight of public estimation to which naturally it is entitled and from which it has been held back so long by conflict of great interests.

## LOOK OUT FOR THE GROUND HOG TODAY

Today, according to the old saying and belief will determine whether there will be six weeks more of winter or whether spring will enter with a rush. Should the ground hog see his shadow, there will have six weeks more of winter weather. If such be true and the six weeks are as agreeable as the winter weather we have experienced so far, we should worry. If the sun remains hidden today and the ground hog fails to see his shadow, spring will arrive early.

CLOSING OUT SALE

## OLD JACKSONVILLE

FURTHER WEATHER NOTES

By Ensley Moore

(Member Illinois State Historical Society)

In the Journal of January 26, ult., the writer quoted some facts about old time cold weather from the New York Star, which mostly only referred to the eastern states. But that article also had this worth repeating:

"From December 1788, until March, 1789, the Delaware and Ohio rivers were both frozen and navigation suspended. In 1792 snow fell two feet deep in Ohio, and the river was so firmly frozen that mounted troops and artillery wagons rode across by the hundred. 'Cold Friday', still forms a subject for many a grandchild's tale of terrible winter weather. On Friday, Feb. 7, 1807, the day opened mild. Rain fell, changing to snow, and followed by a frigid wave of unexampled severity, and accompanied by high wind which changed to a hurricane. The frozen trees were broken by the dozen, each as it fell, giving forth a report like that of a cannon.

The whole land was icebound; traffic was stopped, and outdoor work of every kind suspended. Many froze to death in their beds, while the mortality among wild and domestic animals was equal to the ravaging of a plague. This story sounds like that of our own 'Sudden Freeze,' of December, 1836. Another time of great cold in the east was in 1816, which was afterwards called, 'eighteen hundred and froze to death,' because there was frost every month of that year. The cold may, or may not have extended to this region.

Mr. Root's Report.  
The Journal of January 23, 1921, had some comments and facts from Mr. Clarence J. Root, U. S. meteorologist, at Springfield, this state.

He said seasons of the years are not changing so radically as some people believe, and he was replying to the declarations of an old inhabitant who said: "The seasons are changing, and we do not have the cold weather we did when I was a boy."

Mr. Root referred to weather conditions since 1792 and said: "With the exception of a few months in 1795, continuous temperature records have been maintained in New Haven, Conn., since February, 1789. I have arranged the annual mean temperature value by decades, with the following results:

For each decade ending 1790 to 1820," the highest mean was 50 degrees F., and the lowest 47.5. He then went over temperature of

the warmest and coldest individual months during these years, and ends: "Thus it will be seen that in nine months of the year the coldest one on record occurred after the warmest. These figures would indicate very clearly that since the Revolutionary war, at least, there has been no permanent change in temperature."

Now, Mr. Root was quoting eastern reports, while they might not apply to this section of the country.

Weather Here.  
In support of this view, the writer recalls that along in the seventies or eighties of the nineteenth century, the New York Evangelist said the mercury, at the time of that issue had been down to 13 degrees below' the lowest in thirty years."

During that period we had had a great deal of weather when the temperature was much colder. The most notable being in 1873, when it was 40 degrees below zero, one day; and President Sturtevant pronounced it the coldest weather he had seen here, and he dated from 1829. He did not, however, mention the numerous occasions when we had long continued spells of very cold weather. Some being zero or below for days.

In 1845.  
In January and February of 1855, of course after Mr. Sturtevant's statement, there were 40 days of weather, when the mercury was not above zero, and was often much below. The writer recalls walking up from the Press banquet, in Chamber's West State street hall one night in February, 1855, when the mercury was fifteen degrees below zero, and the snow was banked up on each side of the street car track.

There has been very little extremely cold weather, and few heavy falls of snow here since about 1890, compared with the thirty or forty previous years.

Any of our old citizens, who have good memories, could probably verify this statement.

Of course, any one who has questioned many old people knows that they are apt to have poor memories. In illustration of this, the writer recalls trying to find out the time of our "Deep Snow." It varied apparently in date from 1825 to 1835, according to different memories. It really occurred in December of 1830 and January or February, 1831.

## MUNICIPAL LEAGUE TO HOLD SESSIONS

Seventh Annual Meeting Will Be Held in Springfield Today.

The seventh annual meeting of the Illinois Municipal League will convene in Springfield today and sessions will continue thru Thursday. Mayor E. E. Crabtree will attend and will discuss the question of increasing the membership of the league. One of the purposes of the committee arranging for the annual meeting has been to devise ways and means for bringing the purposes of the league into a wider understanding.

An address of welcome will be given this afternoon by Charles T. Bauman and one of the subjects presented will be "Municipal Revenues" by J. Emil Smith of Springfield. Tonight Prof. R. M. Story of the University of Illinois will discuss "Cities and States."

Tomorrow W. F. Dodd will have for his theme, "Public Utilities and Cities," while J. A. Dahlberg, speaker of the house of representatives, will talk about "Small Parks and Playgrounds." Other themes of interest to municipal officers and citizens generally will be presented.

A dinner will be given at the Leland Thursday for the delegates.

## SOME FACTS ABOUT ALSIKE CLOVER

Alsike is considered the hardest of all clovers and seldom winter kills. It is a perennial and lasts several years from one seeding. It is especially adapted to wet land and also does well on any type of soil.

Alsike comes between medium red and white Dutch clovers. It blossoms like the white Dutch, but has a larger and thicker seed pod. It also grows much larger, but it is inclined to lodge unless sown with the red clover or timothy or orchard grass. It makes an excellent combination with those two. Alsike does not make a dusty hay. The seed are small and goes much farther than red clover to plant.

The hearing on the Calder bill which proposes control of the mining industry is being criticized by both the mine operators and the representatives of the miners. Certainly there must be some merit in this proposed piece of legislation.

Somehow we can't help thinking that Judge Ben Lindsay, who in the past has been the presiding officer in one of the lower courts, should be willing to abide by the finding of the U. S. supreme court, and admit that he is in the wrong in the case from which he took appeal to the highest court in the land.

Only a few months ago most people thought that the creation of the railroad labor board was about to end all of the pressing difficulties over wages and hours of labor. Now it seems that the board hearings give promise of a long series of contentions.

The average man does not know anything about international law. That is the reason he can't at all understand the system whereby it has been deemed necessary for Gen. Allen, military representative of the U. S. in Germany, to apologize to the government for the recent effort to abduct Bergdall, the American draft evader. He is a fugitive from justice and the government has spent vast sums in the effort to bring about his arrest. But evidently the international usages required the apology referred to.

Gen. Sanborn has a notable war record and is a fine soldier. Nevertheless, the American Legion acted wisely in its continued unwillingness to allow the organization to become involved in the present effort to retain the general as a member of the Illinois tax commission.

**SPRINGFIELD FIRED AT LAST**  
This is the editorial view of the Springfield Journal relative to the purchase of the utilities there by the city:

After years of waiting the temporarily insurmountable obstacle to the advancement of this city has been removed and the state's capital is now free to make progress, once more. Patient persistence on the part of progressive business men finally succeeded in the apparently hopeless task of getting the city and the local utilities company to meet upon common grounds where an agreement has been reached which solves the public lighting, heating and power problems. The deadlock is broken.

Many details are involved in the agreement, but the substance of it is that terms have been agreed upon by which it is possible for the city to buy the heating, lighting and power plants of the Springfield Light & Power company and add them to the lighting and power system of the municipal plant, thus giving the municipality complete monopoly in the electric and public heating field. This situation contains vast possibilities for the city.

**On the Level Now Who is "Cappy Ricks"?**

which the city commission will endeavor to realize upon.

Equally important with the opportunity to purchase the plant at an agreed valuation is the initiation of a plan for financing the deal, which local financial leaders have pronounced feasible and free from serious objections. If their anticipations be realized, this city soon will have possession of the properties and will enter promptly upon a definite plan of gradual liquidation of the large indebtedness necessarily a feature of so large a venture.

All this means that the long period of stagnation which has held back public improvements is brought to an end. Electric wires now can be put under ground, modern ideas of electric heating service can be improved and made efficient. Street railway tracks can be replaced with modern equipment, and street pavements that have been deteriorating for so many years can be replaced. Millions of dollars that have been withheld for years from street improvements will be released and put to work for the benefit and comfort of the public. Instead of a city laboring under a rebuff for lack of public enterprise, Springfield will step at once into the forefront of progress and take the position in the limelight of public estimation to which naturally it is entitled and from which it has been held back so long by conflict of great interests.

Hess.  
Funeral services for Miss Laura A. Hess were conducted at 9:30 o'clock Tuesday morning at the residence of Mr. and Mrs. Fred Drake, 409 West College street, Rev. W. H. Marbach officiating. The remains were taken over the C. & B. Q. railroad to Canton, the decedent's former home, for burial.

The pall bearers at the services here were R. F. Cassell, James Brown, V. Gower, J. A. Long, Harry Dobyns and Geo. T. Douglas.

**Long.**  
Funeral services for John K. Long were held from the residence 310 West College avenue, at 2 o'clock Tuesday afternoon in charge of Dr. Joseph R. Harker. Clayton C. Quast sang a solo. The flowers were cared for by Mrs. H. M. Andre, Miss Helen Carter, Miss Florence Taylor and Miss Clara C. Moore.

The members of Upsilon Lodge No. 243, I. O. O. F., with which Mr. Long was for so many years actively identified attended the services in a body and carried out the funeral service of the order at the grave. The I. O. O. F. quartet James Guyette, C. B. Magill, Ben Denny and Maurice A. Peckham sang.

Burial was in Diamond Grove cemetery the bearers being: H. M. Andre, T. M. Tomlinson, James W. Elliott, G. H. Kopper, John Unglaub and H. J. Rodgers.

**LOOK OUT FOR THE GROUND HOG TODAY**  
Today, according to the old saying and belief will determine whether there will be six weeks more of winter or whether spring will enter with a rush. Should the ground hog see his shadow we will have six weeks more of winter weather. If such be true and the six weeks are as agreeable as the winter weather we have experienced, so far, we should worry. If the sun remains hidden today and the ground hog fails to see his shadow, spring will arrive early.

**OLD JACKSONVILLE**  
FURTHER WEATHER NOTES  
By Ensley Moore  
(Member Illinois State Historical Society)

In the Journal of January 26, ult., the writer quoted some facts about old time cold weather from the New York Star, which mostly only referred to the eastern states. But that article also had this worth repeating:

"From December, 1788, until March, 1789, the Delaware and Ohio rivers were both frozen and navigation suspended. In 1792 snow fell two feet deep in Ohio, and the river was so firmly frozen that mounted troops and artillery wagons rode across by the hundred. 'Cold Friday', still forms a subject for many a grandchild's tale of terrible winter weather. On Friday, Feb. 7, 1807, the day opened mild. Rain fell, changing to snow, and followed by a frigid wave of unexampled severity, and accompanied by high wind which changed to a hurricane. The frozen trees were broken by the dozen, each as it fell, giving forth a report like that of a cannon.

The whole land was icebound; traffic was stopped, and outdoor work of every kind suspended. Many froze to death in their beds, while the mortality among wild and domestic animals was equal to the ravaging of a plague." This story sounds like that of our own "Sudden Freeze," of December, 1836. Another time of great cold in the east was in 1816, which was afterwards called, "the eighteen hundred and no summer," because there was frost every month of that year. The cold may, or may not have extended to this region.

**Mr. Root's Report.**  
The Journal of January 28, 1921, had some comments and facts from Mr. Clarence J. Root, U. S. meteorologist, at Springfield, this state.

He said seasons of the years are not changing so radically as some people believe, and he was replying to the declarations of an old inhabitant who said: "The seasons are changing (and we do not have the cold weather we did when I was a boy)." Mr. Root referred to weather conditions since 1792 and said: "With the exception of a few months in 1795, continuous winter records have been maintained in New Haven, Conn., since February, 1789. I have arranged the annual mean temperature value by decades, with the following results:

For each decade ending 1790 to 1920. The highest mean was 50 degrees F., the lowest 47.5. He then went over temperature of

desty. And then she wonders why the men do not fall for it.

Some tightwads imagine that expensive things are things that you can't buy in a ten-cent store.

**SOME FACTS ABOUT AISLIE CLOVER**  
Aislie is considered the hardiest of all clovers and seldom winter kills. It is a perennial and lasts several years from one seeding. It is especially adapted to wet land and also does well on any type of soil.

Aislie comes between medium red and white Dutch clovers. It blossoms like the white Dutch, but blossoms are larger and tinged with pink or red. It also grows much larger, but it is inclined to lodge unless sown with the red clover or timothy or orchard grass. It makes an excellent combination with those two. Aislie does not make a dusty hay. The seed are small and goes much farther than red clover to plant.

**WORK ON PYTHIAN HALL IS BEGUN**

Extensive betterments to be made in Lodge Headquarters on North Side of Square.

The work of enlarging the headquarters of the two Knights of Pythias lodges and the D. O. K. K. on the north side of the square, has started. Carpenters are now tearing out partitions and doing other remodeling, which in the long run will give the lodges more and better arranged space.

Some of the lodges have stated that the work will probably be completed within a period of three weeks. The remodeling is being pushed, and the rooms will be put in order by Friday night, so that a dance now being planned by Favorite and Jacksonville Lodges can be conducted.

The club and social rooms, when the work is finished, will be moved to the second floor of the building. The third floor will be occupied by the kitchen, dining hall and assembly room. The lodge rooms extend over three business establishments, Knolls, Tomlinson's and Kinney stores.

Jack'sville Lodge No. 152, Favorite Lodge No. 376 and the Dokays will have a much more satisfactory arrangement of rooms when the workmen cease activities.

**Moving pictures Westminster church, next Saturday night. Four good reels. No admission charge but a collection will be taken.**

**PROBATE COURT.**

In the estate of Hannah E. Traylor, letters testamentary were ordered to issue to J. Weir Elliott.

In the conservatorship of Emma Moton, resignation of John Kennedy was noted and John Ryan was appointed in his stead.

In the estate of Mary Deatherage, letters of administration were ordered to issue to J. C. Deatherage and bond was fixed in the sum of \$1,000.

In the estate of J. Otis Acenogle, and was approved.

In the estate of Charles M. Hocking, the will was filed and hearing was fixed for Feb. 28.

In the estate of Martin R. Joyce, the will was admitted to probate.

### SEVERAL SALES HELD IN COUNTY TUESDAY

All Are Well Attended and Prices in the Main Were Satisfactory—Cows at Redburn Sale Bring Good Prices.

Several sales were held in Morgan county Tuesday. Despite bad road conditions they were all well attended and prices in the main were satisfactory.

Two of the men who held sales yesterday, Amos Swain and J. H. Redburn will become residents of Jacksonville. Cows at the Redburn sale sold especially well, considering the market conditions throughout the country at present.

**Swain Sale.**

The sale of Mr. Swain was held at his farm at Sinclair with J. L. Henry and C. J. Wright, as auctioneers. N. T. Fox served as clerk. The sale totaled about \$2,600. Mr. Swain has leased his farm and will soon move to Jacksonville to reside. Lunch was served by the Ladies' Aid of Hibernia and they realized a goodly sum from their venture. Some of the prices and buyers are given: George Wheeler, span mules \$282.50; Joseph Ryman, horse \$80.00; N. T. Fox, horse \$50.00; Mr. McClure, horse \$50.00. Shoats sold at from \$5 to \$15 per head. Farm implements also sold well.

**Redburn Closed Out.**

J. H. Redburn held a closing out sale at his farm north of the city Tuesday. Mr. Redburn has sold his farm and will retire temporarily from active work and expects to move to the city.

The sale totaled about \$900 and prices were satisfactory, being especially good on the cows, tho Mr. Redburn said they did sell for what they are worth. A. C. Reid and Harry Thompson were the auctioneers and James Martin served as clerk. Some of the prices and buyers are given hereunder: George Robinson, cow at \$56.00;—And one at \$68.00; Robert Nunes, cow at \$68.00; Heifer at \$47.00; Samuel Butler, cow at \$63.00; Arthur Black, cow at \$77.00; Thomas Barbour, cow at \$77.00; Roy Robinson, cow at \$43.00; George Hall, steer at \$56.00; George Newman, bought seven shoats for \$67.00;—And a sow at \$21.50; Harry Perry, five small pigs for \$21.25;—And ten pigs for \$22.00. Implements and other stuff offered brought good prices.

**Mulligan Sale.**

F. K. Mulligan held a closing out sale at his farm, six miles west of Jacksonville Tuesday. The sale totaled about \$1,000 and prices were satisfactory. Five hundred bushels of corn was purchased by Wilbur Williams at 65 cents per bushel. Merle Beddingfield was the auctioneer and Fred Jewsbury served as clerk.

**Jack'sville Lodge 570 A. F. & A. M. will hold a special meeting this afternoon at 2:30 o'clock. Work. Supper at 6 o'clock. Refreshments after work. Visiting brethren welcome.**

**H. C. Goebel, W. M. E. L. Kinney, Sec.**

**HI-Y CLUB MET.**

The Hi-Y club held its regular meeting at the Baptist church Tuesday evening at 5:30 o'clock. About 29 boys were present. Supper was served by the ladies with Mrs. Cox in charge.

**CHESTERFIELD Caps for young men. FRANK BYRNS Hat Store.**

### Social Events

**Golden Rule Club Met With Mrs. Newell.**

The Golden Rule Club met yesterday afternoon at the home of Mrs. Paul Newell on East College avenue. A large number of the club members were present and the afternoon was pleasantly spent with sewing and fancy work. Attractive refreshments were served by the hostess.

**Baptist Circle Plans Work for Year.**

Circle Number Three of the First Baptist church, met yesterday evening at the home of Mrs. W. T. Spiros on South Clay avenue. A business meeting was held and officers for this year were elected. Plans were also made in which the work for the coming year was outlined. After the business of the evening was finished a very delightful social hour was enjoyed and the hostess served refreshments.

**Opportunity Circle Met With Mrs. Stout.**

The regular monthly meeting of the Opportunity Circle of Grace church, was held at the home of Mrs. Tihman Stout on Monday evening. Devotions were in charge of Mrs. J. A. Vollrath. After the regular business session, the following program was rendered: Piano solo, Miss Jessie Whorton; vocal solo, Miss Wilma Williams.

A delightful social hour was enjoyed and delicious refreshments were served. Assisting Mrs. Stout were Miss Lillian McCullough, Mrs. Le Roy Potter and Mrs. J. A. Vollrath.

**Clover Leaf Booster Club Banquet.**

The men of the Clover Leaf company gave a banquet last evening at 6:30 to the girls of the Clover Leaf Booster Club. It is an annual affair and is given entirely by the men, who do all the cooking and serving themselves. Last night's banquet was a great success and a fine menu was served in the very best of style by the "Clover Leaf" waiters. "Chefs" John Larson acted as chief cook for the affair and the sumptuous banquet showed that he understands the art of putting on a good menu.

After the dinner the members of the Booster Club enjoyed a pleasant evening with music and dancing. A great deal of mirth was afforded by a mock auction sale which was a feature of the evening's entertainment. All kinds of nonsensical things were sold at nonsensical prices and altogether the evening was a most delightful one and the girls voted the men royal entertainers.

**Bride-to-be Honored at Luncheon and Rush.**

Mrs. Shirley Strawn Frye and Miss Hazel Strawn delightfully entertained last evening in honor of Miss Bernice Dodsworth who is soon to become the bride of George W. Robinson. The affair was a delicious six course luncheon served at six-thirty to a limited number of guests, the most intimate friends of Miss Dodsworth. Pink sweet peas, narcissus and similar artistically decorated the Strawn home and on the tables were miniature favors representing messengers announcing the date of the approaching wedding, February 8. The menu also carried out the color scheme of pink and white.

After the luncheon the guest of honor was pleasantly surprised when each of her friends presented her with useful articles for her new kitchen. Miss Dodsworth was the recipient of many both practical and attractive gifts. The remainder of the evening was pleasantly spent in a social way.

**Tuesday Club Held Unique Meeting.**

The East Side Tuesday Club had an indoor picnic yesterday evening at the home of Mrs. C. O. Swift of West 10th street. This is an annual affair and is called a midwinter picnic. The families of the club members were guests at the affair and a delicious picnic supper was served. All the informality and fun of a "regular" picnic was enjoyed by all those present. An impromptu program and entertainment was given during the evening and a delightful social hour enjoyed. Mrs. A. B. Williamson was the chairman of the committee on arrangements for the affair.

**Missionary Society Studies Conditions in East.**

The Home and Foreign Missionary Societies of Congregational church met in the church parlors Tuesday afternoon.

A very interesting paper on the care of lepers in the Far East, was given by Mrs. Nettie Havenhill. The work with lepers is a very interesting subject and in her talk Mrs. Havenhill mentioned the great change which has taken place in the last two centuries as regards the care of the victims of this disease which is so prevalent in Eastern countries. "The Crusade of Compassion for the Heavens of the Nations," a history of the work of medical missionaries, was one of the books from which Mrs. Havenhill took some facts.

Miss Georgia Fairbank was the hostess for the pleasant social hour which followed the program.

**NO BIDS RECEIVED FOR SCHOOL BONDS**

Security Firms Cannot Market Bonds With Optimal Funding Provision—Another Election May Be Held.

The board of education did not receive a single bid last night for the school bonds authorized at the recent special election. Advertisement offering the bonds for sale were issued in the way prescribed by law but the security market is such at present that the bond houses were evidently unwilling to bid.

A special meeting of the board was held last night to consider any bids received. President Lippincott and a majority of the members of the board were present. As a result of this condition, an endeavor will be made to arrange for another offering of bonds without the refunding suggestion proposed in the recent offering.

M. P. Dunlap attended the board session last night as a representative of A. B. Leach & Co., bond brokers, and H. H. Potter appeared for W. R. Compton & Co. It was explained that the probable reason that the bond houses were unwilling to bid was because of the provision that the bonds issued can be repaid at any time the board of education desires. The present condition of the security market is such that a school bond to bid sale must run for at least a period of ten years. The view was expressed that if the bond offering is made upon this basis that it is entirely probable that the bond houses will bid upon the offering.

If the plan discussed last night is followed out, it will be necessary to hold another election, as it is required by law that all the details relating to a bond issue must be specified when the election is held.

**KNIGHTS OF PYTHIAS HELD REGULAR SESSION**

Jack'sville Lodge No. 152 Knights of Pythias held its regular meeting at Castle Hall Tuesday night. There was a large attendance of members and considerable enthusiasm evinced at the progress being made in securing new members and in the work of remodeling and enlarging the present quarters.

B. R. Vogel, representing the K. of P. Insurance department with headquarters in Springfield, Ill., was present and made the members an interesting talk on the benefits of insurance and the progress made by his department.

At this meeting arrangements were completed for the dance and entertainment to be given Friday night at Castle Hall by Favorite and Jacksonville lodges to members, their families and invited guests. This evening promises to be one of the best of the season.

**PHYSICIANS TO HAVE OWN OFFICE BUILDING**

Carpenters Will Remodel Duncan Property on West State Street—Group System Will Be Developed.

A deed was placed on record yesterday showing the transfer of the Duncan building on West State street to Dr. Carl E. Black and Dr. Charles E. Cole. The two physicians at this time are acting as trustees for others and within a short time a corporation will be duly organized for the ownership and improvement of the building, which is destined especially for physicians' offices.

The property was purchased from Dr. and Mrs. W. P. Duncan and the transfer yesterday concludes negotiations which have been in progress for a number of weeks past.

The Duncan building was chosen because of its admirable location for the purposes intended. The building is so arranged that a special amount of light can be secured for office rooms. The first floor will provide five suites of offices and a general waiting room, and the second floor probably an equal number.

The lease of George T. Douglas runs until November of the present year, and it is quite likely that there will be no remodeling until 1922, or at such time as the new owners believe that the prices of materials and labor have reached the general level.

A part of the third floor will be used for laboratory purposes and as a matter of fact, Dr. Black has had his laboratory established there for several weeks past, where the work is in charge of Dr. Edsworth Black.

The founding of a new corporation is really a development of the group idea among physicians and surgeons, which has had so much of impetus in the last few years. The advantage of specialization, especially from the viewpoint of the patient, have had much to do with group development.

**ROBT. M. CAPPS WEDS MISS GATLING TUESDAY**

Marriage Ceremony Took Place Tuesday Night in Springfield, Mo.

The marriage of Mr. Robert M. Capps of Jacksonville and Miss Lucy Gray Gatling of Springfield, Mo., was solemnized in that city Tuesday night. The ceremony took place at the home of the bride's parents, Mr. and Mrs. Moore, at 8 o'clock. Because of the illness of Mrs. Moore, this was a very quiet home wedding event.

Mrs. Capps is quite well known in Jacksonville, as when he family home was in Springfield, Ill., she was a student at Illinois College and the Conservatory of Music for several years. It was in student days that the friendship began which developed into the marriage of Tuesday. The many friends of the bride here know her as a young woman of especially fine spirit. While in this city she enjoyed the popularity which comes naturally when graciousness is a characteristic.

Mr. Capps, who is a son of Mr. and Mrs. Alfred T. Capps, graduated from Illinois College in 1917. Shortly afterwards he volunteered for army service and was sent for training to Chicago University and prepared for work in the ordnance department. He had the rank of second lieutenant and was in the service for eighteen months. He is now associated with J. Capps & Sons, Ltd., representing the clothing department in Wisconsin territory and a part of each year is in the office of the firm here. He is one of the young men who is doing his full share in keeping the Capps name what it has so long been—a real asset to this community.

Mr. and Mrs. Capps after spending a number of days in Wichita, Kas., and Kansas City will come to Jacksonville and will reside at 216 Caldwell street.

**TWYFORD-STEVENSOM**

James Twyford and Miss Hattie Stevensom, both of Jacksonville, were married in St. Louis, Mo., Tuesday morning. They were unattended. Both groom and bride are well known to many of Jacksonville residents. After a short wedding trip south they will be at home in this city.

**AMERICAN LEGION HELD BUSINESS SESSION**

A regular session of the American Legion post was held last night at the Elks lodge rooms. There was a good attendance and unusual interest marked the occasion. Elmer Henderson, vice commander, presided in the absence of Commander W. T. Harmon. The new finance officer, Wilbur Hauck, assumed his duties last night, and it was announced that Donna D. Baird had been named chairman of the publicity committee. Other members of this committee will be announced later.

Among matters discussed Tuesday night was the arrangement for selling tickets for "Happy Ricks" an attraction at the Grand theatre next Monday night. The Legion is to receive a commission on tickets for this performance sold at the following places: Mullenix & Hamilton, East State street; T. M. Tomlinson, north side square; Brown's Music store, south side square; Reynolds Mortuary, West State street. Tickets sold by the Ladies Auxiliary will also be for the benefit of the Legion.

## RED ARROW DIVISION TO MEET IN AUGUST

Second Annual Convention of Thirty-Second or Red Arrow Division to Meet in Detroit in August.

Detroit. — (By The A. P.)—Elaborate plans are being made here for the second annual convention of the thirty-second or Red Arrow Division, to be held August 28, 29 and 30.

Pledges of cooperation in formulating the plans have been given by Red Arrow veterans here by officers of the state national guard and regular arm officers stationed in this district.

Altho the program as yet is

tentative, it is proposed that the following schedule be carried out:

Sunday, August 28—Registration and billeting, memorial exercises, regimental and unit banquets and business meetings.

Monday, August 29—General meeting of the 32nd Division association to take place during the forenoon. Sightseeing trips in the afternoon. A general reception, including dancing, and boxing bouts, in the evening.

Tuesday, August 30—A parade at noon, the convention ending with a picnic in the afternoon.

The first convention of the organization was held last year in Milwaukee, it having been decided when the association was formed that the annual meetings would be held alternately in Michigan and Wisconsin.

Many Wisconsin veterans of the division are expected to attend the convention here.

## CRIME RECORD IN NEW YORK IS APPALLING

Record for Past Year Shows More Than 400 Robberies and "Stickups" on Newspaper Lists of Crimes—Total Value of Loot Obtained by Burglars Estimated at \$1,000,000.

New York, Jan. 29.—(By The Associated Press.)—New York has thrown away its nickel novel of 1920, to begin the 1921 thriller of Dead Men's Gulch moved into Broadway and the Black Hills set down on Fifth Avenue somewhere between the Waldorf-Astoria and 42nd street.

With something like 400 robberies and "stickups" on the newspaper lists of crimes for the past year, and more than 100 murders and killings set down by news offices as "unsolved," the New Year has had set for it a penny-dreadful record it will take two-guns from Coyote Canyon a lifetime's endeavor to beat.

A ride from the Grand Central in a taxicab now is conceded by leading papers of the city to have nothing on a trip in the Deadwood Stagecoach and the big hotels and restaurants loom up as cheery as the Santa Fe Saloon in the Wild West days of the six-gun terror and the Bad Boy Bandits of Bloody Hollow.

Twenty police riflemen patrol the streets at night in automobiles. The curfew rings out at night when Central Park is closed to vehicular and pedestrian traffic, and all persons abroad must give account of themselves when asked.

### Citizens Urged to Arm Themselves.

In the past month judges on the criminal courts bench have urged formation of citizens' committees on a par with the vigilantes of the frontier before it was accused of moving back east to metropolitan centers. The Mayor has warned all persons carrying or possessing valuables to procure permits to arm themselves against highwaymen and the police have tried to get back to something like first principles in life and property protection.

Crimes have been chronicled as they were robbery and murder cyclones, and the subway newspaper reader has felt the thrill of riding the Overland Limited in the days when Jesse James and his gang held no prairie railroad immune from their ravages.

Estimates have placed about \$1,000,000 as the total value of loot obtained by burglars, thieves and yegmen in New York during 1920. Daylight holdups, attacks in leading Great White Way hotels and automobile banditry have yielded much of the valuables stolen. As many as 40 robberies and thefts have been featured for a month's acts of violence of note, and six such attempts in a day have been recorded.

Murders Internationally Known

Of the more than 100 "unsolved" murders listed by some papers, a number now are nationally, if not internationally, known. Beginning with a killing last New Year's Day, 1920's record started strong. Conspicuous in the 12 months' list were the murders of Joseph B. Elwell, Miss Rennie Constance (Toke) and Frederick (Eckert) Elwell, known from coast to coast as a whist expert and horseman, who died in his handsomely furnished West 70th Street home; Miss Helix, a 17-year old girl, was found mutilated in her father's house; Eckert, a former government agent and alleged whiskey runner, was found shot dead in a automobile in Staten Island.

In the robberies, organized bands of gunmen have seemed to predominate. Theft of valuable goods from railroad freight cars, making big in packing cases, have been considerable. Stolen automobiles have been reported constantly. But holdups of the old time type, by day as well as at night, on the street, in the home, in hotels, where masked and unmasked men have taken what they wanted at the point of pistols, have called forth the hue and cry against alleged "inadequate police protection."

Automobile bandits have made off with a number of factory payrolls and banks have seen gunmen walk in and demand money from the safe under penalty of instant death.

All this time the Police Department has been under fire. Police Commissioner Enright, right bower of the city administration, has been attacked continually in the newspapers because of the prevalence of the gunmen.

The Commissioner has retorted by asserting that this condition exists elsewhere. To combat it he has lengthened the hours of police duty called for 500 additional policemen and sent out automobile squads armed with rifles to patrol the shopping and business districts.

## Will America Fill the Bowl? No Food for Europe's Children Unless Americans Send Relief

Never in their lives have these children of Europe's hunger districts known the certainty of even one good, nourishing meal a day. And the result? A generation of boys and girls, pallid and undersized, with bodies misshapen and diseased, road victims for tuberculosis or any other scourge.

The European Relief Council, under the chairmanship of Herbert Hoover, is asking every American family to save a child's life this winter. Each American home is requested to entertain a little European youngster and his brother and sister, if possible, as an "invisible guest" at his dinner table. The child will eat his meals at one of the feeding stations in Eastern and Central Europe which the Council is maintaining for these most helpless

victims of the war. But he will be our "invisible guest" because our purchase of an "Invisible Guest" certificate has assured him a share of the American food stuffs that have been imported for the children. One dollar will give him a meal a day for a month. Ten dollars will provide for him until the harvest of 1921.

The European Relief Council, comprising eight large American relief agencies, is seeking \$33,000,000 in a nation-wide collection—\$23,000,000 for the maintenance of the child feeding stations, and \$10,000,000 for medical relief.

"Invisible Guest" certificates may be obtained from your local committee. Or, if you prefer, apply to Franklin K. Lane, treasurer of the European Relief Council, 42 Broadway, New York City.

## U. S. FARM CROP VALUE ESTIMATED

Total Farm Crop in U. S. Valued at More Than Ten Billions, According to Department of Agriculture Estimate.

Washington, Feb. 1.—By The Associated Press.—All farm crops of the country were valued at \$10,465,015,000 last year, based on December 1 prices paid to producers, the Department of Agriculture has estimated. That compares with \$16,035,111,000 in 1919 and \$10,156,436,000 the five year average, 1914 to 1918 inclusive.

Texas maintained its place as producer of crops of greatest value with a total of \$2,727,400,000 which was half a billion dollars less than in 1919. Iowa retained second rank with \$1,571,000,000, Illinois only slightly behind Iowa, continued its place as third with \$1,459,171,000.

California jumped from ninth into fourth place, held in 1919 by North Carolina, with \$1,577,500,000. New York went into fifth place from 14th rank with \$1,456,507,000. North Carolina dropped into sixth place with \$1,122,374,000.

Pennsylvania went forward into seventh place from 16th rank the previous year with \$1,397,617,000. Kansas dropped from 5th rank into eighth place with \$1,378,136,000. Ohio dropped from eighth rank into ninth place with \$1,369,869,000. Wisconsin moved into tenth place from 15th rank with \$1,350,270,000.

Missouri dropped from ninth rank into 11th place with \$1,343,012,000. Georgia dropped from 6th rank to 12th place with \$1,223,299,000.

The other states according to rank and the value of their farm crops for 1920 follow:

|                    |                 |
|--------------------|-----------------|

## NO GREAT DECREASE IN DEMAND FOR GRAPES

Cleveland. — (By the A. P.)—That prohibition did not ring the curtain down on the grape industry was the opinion of delegates attending the recent convention of the National Grape Growers Congress here.

"The wine lost the sour wine trade," L. G. Young, grower of Erie County, Pa., declared, "there has been such an insistent demand for grapes for the making of home-made wine by the foreign elements, who are wine drinkers that the price of grapes is higher than ever before."

Last season grape prices reached top mark about \$200 a ton, it was said. In 1919 they were \$80 a ton and in 1914 about \$35 a ton.

W. O. Johnson of Geneva, O., president of the organization said the shortage of cars last season caused great loss to the growers, because large quantities of fresh fruit were allowed to spoil due to inability to ship.

## PUTTING STATE FARM IN FINE CONDITION

Work Is Progressing on Big Tract Near Vandalia — Short Term Prisoners Will Be Cared for There.

The Vandalia Union in a recent issue gives an interesting story of the development of the new state farm near Vandalia. Charles T. Hoblit for some years connected with Jacksonville state hospital and later in charge of the farms of all the state institutions is the superintendent. Some paragraphs from the article are given.

In providing for an institution of the character of the Illinois is far in advance of nearly all of the other states in the Union. This is to be an institution to provide for prisoners who are ordinarily sent to jail for from 60 days to one year, or longer—in other words, to take care of men who commit misdemeanors without associating them with confirmed criminals.

The man who is probably more largely responsible for establishing such an institution than any other one man in the state is Mr. John L. Whitman, the present superintendent of prisons.

The original appropriation included \$100,000 for the purchase of land, \$150,000 for the permanent improvements, and \$2,000 for contingencies. Some of the provisions of the appropriation were that the land purchased for this purpose should have good water, gravel and sand for concrete work, clay for making brick, and also be adaptable for general farm and garden purposes. They also provided that the permanent buildings should be constructed as far as possible by prison labor.

The location of the institution was left entirely in the hands of Mr. Chas. H. Thorne, director of the department of public welfare.

Mr. Thorne decided that land be secured that did not cost to exceed \$100 per acre. He also wanted it located where it would be easily accessible for the receiving and shipping of freight, and for the transportation of prisoners from the various counties to it.

Selected Present Site.  
With these instructions in mind, the site was finally selected

## CHERRY Service Station For All Cars

North Main, One Block from Square. Either Phone 850

about two and one half miles north of Vandalia, Illinois. This is accessible to the Illinois Central and Pennsylvania railroad systems and will be on the hard road from Chicago to Cairo when that is completed. This site contains about 1200 acres and cost the state about \$96,000. It has an abundant supply of good water, sand and gravel on it for making concrete, good clay for making brick, and a fine foot vein of moulding sand for which there is a large demand. This farm consists of about two-fifths creek and river bottom. This is a farm that can be wonderfully increased in value by using prisoners to improve it. That is one reason it was selected as a site. The up-land will make a beautiful building spot and after the levee along the river is properly repaired, this part of the farm will produce wonderful crops. The fertility of the up-land part of the farm can be increased by the use of lime phosphate and manure, while the bottom land has all the elements necessary now to produce large crops. The up-land also contains a beautiful site for the erection of the permanent buildings.

The state secured possession of this land with the exception of what was leased about May 1st, 1920. Notwithstanding the lateness of the season, considerable forage was raised this year. The present superintendent, Mr. Chas. T. Hoblit, came here about that time. He is a man of large institutional experience, having been connected with state institutions in various capacities for about twenty years. When he came here on May 1st, there was nothing on the farm but vacant buildings. Most of these were in bad repair. There was not a single head of live stock belonging to the state on the farm. By July 1st, 100 acres of corn planted and a large acreage of cow peas sown. Production has been good and it will not be necessary to buy any hay or corn for the cows, as sufficient was raised to feed the stock until next harvest. On July 25th he was ready for the first consignment of prisoners and fifteen men were sent to the farm from Chester. At this time they have 36 prisoners at the farm and expect to have 100 by the first of March.

Temporary buildings have been erected sufficient to take care of 100 prisoners. The present temporary buildings will probably be used for a farm colony, when the permanent buildings are constructed. It is the idea of Mr. Hoblit to not only have a splendid institution, but also conduct the farm in such a way that it will be a model for the people of the state. To that end it is his desire to have the live stock on the farm of the very best type and to have all buildings models of their kind.

## ECONOMIC FOUNDATIONS NEEDED, NOT POLITICAL FENCES.

(By B. E. Powell.)

What the selling and distributing end of the agricultural industry of the United States needs right now is legislation calculated to build economic foundations not political fences. It will not be enough to afford temporary relief to the farmers of one section or of one crop even though it might gain their political loyalty for a time. Until the farmers themselves realize that the good of one section is inextricably bound up with the good of all sections, that the prosperity of the growers of one staple crop should mean the prosperity of the growers of all staple crops, there is likely to be little significant legislation.

Because American agriculture is composed, for the most part of small units, it is particularly hard to get this fact of the essential oneness of agricultural prosperity under the skin of the American farmer. A speaker for the Farm Bureau, seeking recruits, asked: "Now what must we farmers do?" From the back of the room came a foreign voice deep with conviction "stick together." If this price slump which has struck us all hard could teach that it would be worth while.

The Prairie Farmer commenting on the situation editorially says:

"The American Farm Bureau Federation has become a great national organization of American farmers. It is guided by ideals of business service to agriculture; its ambition is to bring prosperity and happiness to the farmers of the nation. Its plans are sane and constructive. It asks the co-operation of all other interests in its efforts to put the task of providing food and clothing for 100,000,000 people on a business basis. In these troubled and uncertain times there is no force in American life that holds greater promise for the future welfare."

It is difficult when prices are normal to get the farmer to consider general problems. The fact is he has little time to consider for as sure as he does the cows get into the corn or the sheep into the meadow. But if considering is necessary the farmer can do it. It would seem as if the sooner the farmers could be gotten together to face the problems of the distributing and selling of their big business the sooner the situations like the present when the year's turnover means loss will be a thing of the past. It is a matter of fact there is no overproduction to justify the present price situation. But the markets where our products would mean life are closed to us, credits are not extended to the starving, and the American farmer cannot give his crop away however great the need of the world. When you think of it agriculture is the only big producing industry that does not have its own distributing and selling department. Other big businesses are organized with experts whose interest it is to see that a just price awaits the producer or know the reason why. Has agriculture reached the stage where such experts are necessary? It is worth thinking about.

## RESPOND TO AMERICAN LEGION MEMORIAL

Indianapolis.—(By the A. P.)—The American Legion has received more than a hundred favorable answers to its memorial calling attention to the situation which surrounds the rehabilitation of disabled world war veterans, according to F. W. Galbraith, Jr., national commander of the legion. The memorial was presented to the President, President-elect and Congress.

According to Mr. Galbraith practically all of the letters from the secretary to the President, from Senators, Representatives and heads of various government departments and bureaus stated that the writer was squarely behind the Legion's national plan of rehabilitation.

The memorial outlined the situation in regard to the disabled, suggested a remedy and urged the support of the President and the Congress. Copies of the memorial are being distributed to all departments of the Legion and to patriotic and civic organizations in 1,500 cities.

Letters of approval received at National Headquarters of the Legion here include those from Senators William S. Kenyon, Robert M. LaFollette, Medill McCormick, Harry S. New and T. J. Walsh.

## About Batteries

Q.—Is there really any difference in batteries?

A.—Yes, but there are really only two kinds of batteries. Those with wood separators and those with Threaded Rubber Insulation.

Q.—Is Threaded Rubber Insulation the only feature that puts the Willard Threaded Rubber Battery ahead of the ordinary automobile battery?

A.—By no means. The Willard Threaded Rubber Battery has all the improvements that have grown out of Willard's years of specialization in building starting, lighting and ignition batteries. Ask us about it.

All makes of batteries repaired and recharged. Starter, Generator and Ignition work a specialty. Brunswick Tires and Tubes.

Tire Prices

But that's not the point. In addition there are more cars running this winter than ever before, because there has been little or no snow. This means that there are more tires being worn out. The common saying is, I will make the old ones do. Do until the price comes down. This may and may not come.

## What Does This Mean?

That instead of buying one tire now, you will have to buy three or four later. Buying what you need now, will distribute your expenditures, at different times over the year, and to most people is easier done.

**SEED CORN**—We had a wonder-  
ful season at Mason City, this  
year for maturing seed corn,  
with the result that we have  
the finest lot of well dried  
1920 crop of seed corn that we  
have ever grown. This corn is  
gathered early in the fall and  
placed on drying racks when it  
is very slowly dried down to  
twelve or fourteen per cent  
moisture content. This gives  
it very high vitality. We  
have been in the seed corn  
business in a large way for  
over thirteen years and have  
the largest and best equipped  
drying plant in the world. Our  
down town plant is in the cen-  
ter of Mason City, right on the  
hard road between Springfield  
and Peoria. It is well worth a  
trip to Mason City to see this  
bush. Price is only \$3.50 per  
bushel. Write for beauti-  
fully illustrated catalogue.

## HIS EXPERIENCE

### WAS REMARKABLE

Peoria Man Says Tanlac Overcame All His Troubles and He Gained 40 Pounds

"I had actually lost thirty-five pounds in weight. It's a fact, by taking Tanlac I have gained every bit of it back and five pounds besides," was the remarkable statement made recently by W. F. Walker, 206 Fishgate St., Peoria, Ill.

"It didn't seem that there was much chance for me ever getting well. I had been going down hill for six years and my case was a tough one. My stomach was my biggest trouble, and I had reached the point where I was nearly afraid to go to the table and eat. There wasn't a thing hardly that I could digest and gas formed so bad I could hardly breathe. Why, many a time my heart beat so fast I thought each breath would be my last and it made me so weak I could hardly stand on my feet.

"My kidneys were in the worst sort of condition and worried me nearly all the time. My back ached something fearful and at times the pains went clear down into my legs. My feet and ankles were swollen up nearly twice their normal size and for weeks at a time I could not wear a shoe on either foot. Many a night I actually didn't sleep a wink and I went down in weight from one hundred and sixty-five pounds to one hundred and thirty. My nerves were shattered and many times I caught myself all in a tremble.

"My case was really stubborn and it took a good many bottles of Tanlac to fix me up, but today I am an absolutely well man. I have actually gained forty pounds and feel so well I can't tell there was ever anything the matter with me. My stomach and kidneys are fine. My order and I haven't a care.

"Mr. Thompson, my nerves are strong and I sleep all by securing without waking up at all. I consider my experience with Tanlac remarkable and I could talk about Tanlac all day and still not say enough about it."

Tanlac is sold in Jacksonville by Coover Drug Co., Wyle Drug Co., Franklin and Waverly, and leading drug store in all cities.—Adv.

## INFLUENCE ON HERD OF SIRE AND DAM

In a recent issue of The Dairy Farmer four experts discuss the question "which has the greater influence on the herd the sire or dam?"

The evidence presented seemed to indicate as one writer said "that the inheritance is on a 50-50 basis from the two parents." In the discussion Dean F. B. Mumford of Missouri made these statements which should be both helpful and interesting to those who are trying to build up a first class herd. He said: "It is well known that pure bred animals are more prepotent than cross-bred or animals of mixed breeding. Animals that have been carefully selected from many generations for one particular quality are able to transmit this quality with much greater certainty than any other animals which have not been bred for the same qualities. This greater transmitting power of well bred animals is indeed the chief cornerstone in the breeding of livestock for the improvement and maintenance of a highly developed livestock industry."

The chief difference in the transmitting powers of animals is due to their breeding. One animal is well bred, meaning thereby that for many generations only animals possessing the desirable quality have been used in the development of the herd. Another animal is not well bred because an examination of his pedigree shows that the animals in his ancestral history have not uniformly and consistently possessed the good qualities desired. This principle is true when we compare the relative influence of two sires. If the sire is more prepotent than the dam then it must be because the sire is generally better bred than the dam and taking into account the whole livestock population, this is of course, manifestly true. In a herd of 50 animals only one sire is maintained and this sire is better than the many others that have not been preserved for breeding purposes. If we practiced the same discriminating selection in the case of the dam, then we would not find the sire generally a more important factor in determining the qualities of the offspring.

According to Dean Mumford it is a question of which has the better inheritance, the sire or the dam, when it comes to determining which has the greater influence on the characteristics of the offspring. Knowing the facts the stockman will be in a position to judge what course he ought to pursue.

**RHEUMATISM**

A Remarkable Home Treatment Given by One Who Had It  
In the spring of 1893 I was attacked by Muscular and Sub-acute Rheumatism. I suffered as only those who have had it know, for over three years. I tried remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally I found a treatment that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bed ridden, some of them 70 to 80 years old, and the results were the same as in my own case.

I want every sufferer from such forms of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long looked-for means of getting rid of your rheumatism, you may send the price of it, one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when relief is thus offered you free? Don't delay. Write today.

## FARMERS AID IN RELIEF WORK

The people of the Farm Bureau office are earnestly co-operating with the local committees in charge of the European and Near East relief work. They are asking the elevators in the vicinity to receive corn and other grains given by farmers who prefer to give in this form rather than in cash.

Plans are being made for collecting grain thus donated at some central shipping point. From there it will be sent to eastern markets, where it will be sold and the money turned over to the relief committees in New York. It is hoped and fully expected that the response from the Morgan county farmers will be very liberal, and judging from their past contributions to various causes, it is safe to say that it will be.

**Chapin Farmers to Meet.**  
A fine meeting is expected this week, when the farmers of Chapin get together for a community meeting Friday afternoon at 1:30 o'clock. Questions of vital interest to the Chapin farmers and agricultural communities at large will be discussed and a large attendance is expected.

**NOTICE TO ATTORNEYS.**  
Notice is hereby given to the attorneys of the Morgan county bar to meet with the circuit clerk in the court house Wednesday morning, Feb. 2, at 10 o'clock, for the purpose of setting the docket for the first week of the February term. Judge Burton has indicated that he will hold court but one week.

## HEALTH OF WOMEN

How many perfectly well women do you know? Isn't it true that in order to keep up with the march of progress the endurance of woman is often strained to its utmost? And the tax upon her physical system is in many cases greater than she can stand. Headaches develop, and nervous irritability, backache, dragging down sensations, and other painful ailments peculiar to women. The reliable remedy when a woman gets into such a condition is Lydia E. Pinkham's Vegetable Compound, as for nearly half a century it has proved the natural restorative for these troubles.—Adv.

## BRITISH WORKERS DEMAND ACTION

Want Government to Take Steps to Remedy Growing Unemployment—Are Dissatisfied With Government Plan.

London, Feb. 1.—(By The Associated Press.)—British organized labor at the National Conference of the Labor Party and the Trades Union Congress today demanded immediate action on the part of the government to remedy the plight brought by the steadily growing unemployment of the country endorsed a policy which its authors assert will permanently remove the cause of the present industrial depression and adjourned until February 23 in order to give the labor members of parliament an opportunity to press for the desired remedial steps.

## DOCTORS WARN AGAINST COLDS

There has been so much serious illness as a result of neglected colds during the past winters that doctors are advising their patients not to neglect colds. A sneeze, a touch of sore throat or a running nose are the danger signals and an indication for the immediate use of Turpo, the Turpentine Ointment. This is a scientific combination of distilled Turpentine, Camphor and Menthol in a clear mineral base which carries the medication right through the skin or membrane to the root of the trouble.

Turpo does not depend on vapors or other indefinite means to obtain results. It gives immediate relief. It dispels congestion and reduces inflammation. It does not blister the most delicate skin or stain the clothing.

Doctors recognize the value of Turpo as a reliable home remedy and "first-aid" treatment for every cold trouble. Druggists know that it has given satisfaction to their customers. They will sell it to you on a guarantee of money back if not satisfactory.

Sold in white opal jars with the orange and black label, at 30c and 60c.

hor organ, this morning, at either the most momentous or the most futile in labor's history. General dissatisfaction with government's proposed removal was unmistakably reflected by the delegates, who, however, seemed to differ on the most effective means of moving the government to the desired action.

# To Merchants

**THIS** Spring it is dollars in your pocket to buy in St. Louis. The successive increases in freight rates, reaching a peak last August, now more than ever make it a matter of business economy to buy in St. Louis. The saving in freight charges over other markets, paid by you, is an important item in figuring your profit margins.

Ⓐ package-car system built up at the suggestion of the St. Louis Chamber of Commerce gives the St. Louis market a decided advantage over other markets in making prompt deliveries to you. More than 1200 package cars leave St. Louis every night for points in the St. Louis trade zone, by which your mixed shipments will reach you on almost the same basis as express. This will give you quick delivery and enable you to make advance Spring announcements.

Ⓐ You must have seasonable goods to pass over your counters for the customer demand this Spring. Your customers look to you to intelligently supply their needs. Business is going to be just as good as you prepare for. The merchant who waits until the last minute to go to market may not be able to get what he wants when he wants it—no matter what market he visits. After the early buying this Spring choice lines will be broken.

Ⓐ St. Louis is your nearest big market. Terms are as liberal as in any other market. St. Louis is the money center of the Southwest. This is important to you and to the wholesaler. You can do all of your buying in one trip to the diversified St. Louis market. That means a saving to you in time and expense.

Ⓐ St. Louis wholesale houses have complete stocks of new Spring goods for immediate delivery, and at prices representing sound values today. Last October St. Louis houses led the country in cleaning out high-priced stocks, forcing other markets to make price reductions. They took their losses and now are ready for business on the new basis.

Ⓐ St. Louis' economic position for distribution, and its package-car service, is your saving—take advantage of it. Come to market early. Come to St. Louis—the Solid City of the Central West.
